

# BOMB THREAT MANAGEMENT PLANNING

## TRAINING COURSE OVERVIEW

Bomb Threat Management (BTM) Planning (MGT-451) provides foundational knowledge on the DHS risk management process, bomb threat management procedures, and gives participants the opportunity to apply this knowledge in developing and executing a BTM plan.

## COURSE INFORMATION

This one-day instructor-led training covers the following topics:

- DHS risk management process
- Roles and responsibilities of the bomb threat management team
- BTM Plan components
- Developing a BTM plan

This course is designed for groups of up to 20 participants and is intended for audiences such as:

- Critical infrastructure owners and operators
- Public safety officers
- Emergency managers
- Private sector security professionals
- Law enforcement officers
- Security officers

## ACCREDITATION

The Cybersecurity and Infrastructure Security Agency's (CISA) Office for Bombing Prevention (OBP) is accredited by the International Accreditors for Continuing Education and Training (IACET) to award Continuing Education Units (CEUs) for this course: 0.7 CEU
